PROJECTS

LIBRARY MANAGEMENT SYSTEM | Mini Project at College
April 2023 - June 2023
- Online Library Management System is a system that maintains the information about the books present in the library, their authors, the members of the library to whom books are issued, library staff, and all.

SMART HEALTH MONITORING FOR MILITARY PERSONNEL WITH IOT AND TEMPERATURE CONTROL | Main Project at final year of College
February 2024 - May 2024
- This proposed system introduces an innovative health monitoring system tailored for military personnel, leveraging Internet of Things (IoT) technology to integrate temperature, SpO2 (blood oxygen saturation), and pulse sensors.

SPOTSTAR | Freelance Project | Live Link |
Feb 2024 - June 2024
- SpotStar is a revolutionary platform that combines the best of Spotify and Hotstar, Creating a dynamic fusion of music streaming and movie watching.
- Dive into a world where your favorite tunes and blockbuster hits converge, offering an immersive entertainment experience like never before.

RENTIFY | Freelance Project | Live Link |
June 2024 - July 2024
- Rentify is a basic real estate application that allows users to register as either sellers or buyers. Sellers can post properties for sale, while buyers can view and express interest in properties.

ZOMATO, INSTAGRAM, GOOGLE, FACEBOOK | Copy Pages
March 2024 - May 2024
- In this HTML and CSS project, you'll create web pages inspired by the design and layout of popular platforms like Zomato, Instagram, Google, and Facebook.
- Each page will closely replicate the visual style of the original websites.
